

Dean 박대진 선생님 & GM Rick Warren

Hello

I'm Min Su Kim from Sungkyunkwan University Club in Korea.

I am writing this letter to say hello and thank you for the scholarship of World Class Tae Kwon Do.

First of all, thank you very much for your interest in a taekwondo club far away and also, for giving me a chance to receive a scholarship. With this scholarship, my affection for taekwondo got much deeper and I have grown as an individual to have deeper thought and interests not only about myself but the world around me.

"We exist to inspire, educate and develop leadership through traditional Tae Kwon Do, worldwide"

This phrase, written under the certificate of scholarship, made me think about a lot of things. I think I was able to receive this scholarship not just because I was a Taekwondo practitioner, but because of

Dear _____

Your belief in making a better world and striving to positively influence for a better world. I felt your thoughts and decided to become a better person. So, today, I looked for something I could do right now and started a regular UNICEF support for the children who are suffering starvation worldwide. For me, it is not too small nor too huge amount of money which I earn from 2 hours of part-time job, but thinking that I am making a donation with this scholarship gave me the courage and motivation to continue on donating for 8 years more.

Thank you once again to World Class Tae Kwon Do and Tae Jin Park for letting me know the power of positive influence to the world. I will continue to work hard to become a leader who makes a better world.

박대진 선생님 감사드립니다.

Sincerely Min Su Kim 2020.06.09
